

## Free Emergency Contraception for under 25's over the Christmas & New Year public holidays 2018/19

If you have sex without using contraception, or if there is a risk that your contraception may have failed (eg, split condom, forgotten a pill), then you can use emergency contraception to prevent a pregnancy.

Under 25's can access free EHC up to 120 hours (5 days ) after unprotected sex, however we recommend accessing services as soon as possible to increase effectiveness.
